The Company

Company Data as at 30 April 2005

TOTAL ASSETS LESS CURRENT LIABILITIES	STOCKHOLDERS' FUNDS (with borrowings at par)	MARKET CAPITALISATION
£910.7 million	£762.8 million	£663.3 million

Objectives of The Scottish Investment Trust PLC (SIT)

- *To provide investors with above average returns through a diversified portfolio of international equities; and*
- *To achieve, over the long term, asset growth in excess of the company's stated benchmark and dividend growth ahead of UK inflation.*

Risk

SIT's portfolio is invested over a range of industries and is diversified on a geographical basis so that risk is spread. SIT has a long term policy of borrowing money to invest in equities in the expectation that this will improve returns and, should stockmarkets fall, such borrowings would magnify losses on these investments.

Benchmark

The company's benchmark is made up of 50% FTSE Actuaries UK All-Share Index™ and 50% FTSE World ex UK Index Series.™

Management

The company is managed by its own employees led by the manager who is responsible to the directors for all aspects of the day to day management of the company. No other funds are managed, leaving the management free to concentrate exclusively on the company's affairs.

Capital Structure

At 30 April 2005 the company had in issue 208,910,518 ordinary stock units and long term borrowings at par amounted to £147.9m.

Management Expenses

The total expenses of managing the company's business during the last financial year were £4,108,000, equivalent to 0.57% of average stockholders' funds. The company aims to keep this percentage low in comparison with competing investment products.

ISA/PEP

The ordinary units are fully eligible for both ISAs and PEPs. Details of the schemes run by the company are on page 8.

AITC

The company is a member of The Association of Investment Trust Companies.

Chairman's Review

The major international equity markets made unsteady progress over the six months to 30 April 2005. Over this period, our net asset value per ordinary unit (NAV) rose 4.0% while the benchmark index rose 2.4%. Our global equity portfolio outperformed the benchmark index due to good contributions from stock and sector selection in the listed portfolio and a strong performance from our unlisted investments.

Investors will recall that the management of the company's investments was re-organised in early 2004 into a single global portfolio. Since the end of January 2004, the global listed portfolio has risen 8.1%, outperforming the 5.6% rise by the benchmark. Over the same 15 month period, the NAV has increased by 8.7% excluding the debt repayment costs incurred in July 2004.

In my statement in the 2004 annual report, I indicated that a further reduction in the number of holdings was likely. Encouraged by an improved investment performance following restructuring, the manager reduced further the number of holdings in the listed portfolio from 150 to 127 at the end of the period. The portfolio remains very well diversified and there remains ample scope for continued refinement of the portfolio to allow increased focus on the management team's strongest investment ideas.

The first three months of the period saw further steady gains as markets continued to recover from the lows of 2003. However, the tone of markets deteriorated during March and April. Investors had been expecting a strong and sustainable economic recovery and further growth of corporate profits. However, the combination of a series of weaker economic indicators both in the US and Europe and a growing number of disappointing corporate trading statements served to undermine investor confidence. Consequently equity markets fell and bond markets rallied. US official short rates were increased steadily over the period and again in early May to 3.0%. UK base rates remained unchanged and with signs of cooling house prices and weakness in consumer spending they may well be peaking.

The strongest returns in sterling terms came from the Pacific (ex Japan), UK and Europe (ex UK) regions. Modest sterling strength eliminated the low returns achieved in local terms in Japan and the US.

Reflecting investors' growing concerns over the growth outlook, during the period markets rotated towards more defensive sectors such as pharmaceuticals, health and beverages while more cyclical areas started to underperform in a global context.

Over the period, we maintained effective gearing levels at the relatively low level of 106% reflecting the belief that markets would be subdued. We increased our listed portfolio by £6.3m adding to Europe (ex UK) (£18.6m), the

US (£6.9m) and Pacific (ex Japan) (£3.7m) funded out of sales in the UK (-£20.5m) and Japan (-£2.4m). By sector, our main changes included reductions to cyclical areas such as automobiles and oil with additions to health sector investments (£14.5m) and utilities (£13.1m).

Reflecting the new structure, the most significant contributions to relative performance came from international holdings including ConocoPhillips, Nobel Biocare, Esprit Holdings, Yamada Denki and Sanofi-Aventis. In unlisted, our performance benefited from a write up at Aberforth Partnership and a good performance in general. Net distributions from the unlisted portfolio amounted to £11.9m.

Our income again held up well with strong growth in dividends from our holdings, most notably from those in Europe. Lower expenses, receipt during the period of a larger component of our annual dividend income and special dividends allowed the earnings per ordinary unit to rise 14.3%. Last year's interim dividend of 3.90p per ordinary unit was paid in March 2004 to create a final opportunity for SIT PEP & ISA holders and charities to reclaim tax on that dividend prior to abolition of the tax credit. The board has declared an interim dividend of 4.05p per ordinary unit which is an increase of 3.8% and this will be payable on 15 July 2005.

Douglas McDougall

Notes:

The interim statement has been prepared under accounting policies consistent with those used in the preparation of the annual report and accounts for the year to 31 October 2004.

The figures for 31 October 2004 have been extracted from the annual report and accounts for the year ended on that date which have been filed with the Registrar of Companies and which contain an unqualified report from the auditors.

The interim dividend absorbs £8,461,000 (2004 – £8,148,000) and is payable on 15 July 2005 to stockholders registered at 10 June 2005.

The ordinary stock will be traded ex the interim dividend from 8 June 2005 and investors purchasing on or after that date will not be entitled to the interim dividend for 2004/05.

Equity stockholders' funds at 30 April 2005 exclude all revenue items for the current financial year.

Equity investments include the unlisted portfolio of £38.5m. Of this £8.5m is in listed funds which invest in unlisted securities.

The weighted average number of ordinary units during the half-year was 208,910,518 (2004 – 209,533,698) and this figure has been used to calculate the return per ordinary unit shown in the statement of total return. The net asset value per ordinary unit at 30 April 2005 has been calculated using the number of ordinary units in issue on that date which was 208,910,518 (31 October 2004 – 208,910,518).

Unless otherwise stated, performance comparisons in the Chairman's Review are made with the FTSE Actuaries All-Share Index™ for the UK and with the relevant currency-adjusted constituents of the FTSE World ex UK Index Series™ for other geographical areas.

Investor Information

The Scottish Investment Trust PLC (SIT) has been working to provide solid returns for investors for 118 years through bull and bear markets and the most volatile conditions. SIT aims to provide both capital growth through active management of the fund and steady growth in dividend income through its portfolio of holdings which is diversified by geography and industrial sector. A key strength of the company is its simplicity, with the focus on only one fund.

How to Invest

You can buy SIT stock using the simple, low cost investment products outlined below. SIT stock can also be bought directly on the stockmarket through a stockbroker or a bank, lawyer, accountant or other professional adviser.

STOCKPLAN

This investment trust savings scheme is one of the lowest charging available. Its flexibility allows minimum regular investments from only £25 per month and/or lump sum investments from £250, there is no maximum investment limit and you can stop and start at any time.

STOCKPLAN: A Flying Start

SIT's investing for children plan is based on the STOCKPLAN scheme and has the same low charges and flexible investment options. STOCKPLAN: A Flying Start enables family and friends to invest on behalf of a child with a view to providing an investment for the future. It also allows investors to set up a bare trust for a child as well as the usual designated plan, thus providing even greater flexibility. As it is not a Child Trust Fund (CTF) product, the scheme can be used to invest for a child regardless of when the child was born and there is no maximum investment limit. Although intended as a long term investment vehicle, the investment can be accessed if it is needed before the child reaches 18.

The SIT ISA

One of the most competitively priced ISAs on offer. Other than stamp duty and dealing spread, there is no initial, exit or withdrawal plan charge. The ISA annual management fee is 0.6% capped at £30 + VAT regardless of how much your ISA investment grows or how many years ISA allowances you invest with SIT.

The SIT PEP

This also has one of the lowest charging structures around. The annual fee is only £30 + VAT, again regardless of the number of SIT PEPs held or the value of the investment.

PEP and ISA tax issues

Investment in PEPs and ISAs continues to be free from any capital gains tax. Higher rate tax payers do not have

to pay any additional tax on the dividend, nor does it need to be included in a tax return.

Dividends

This year SIT will pay the interim dividend in July as usual. Last year's early payment of the interim dividend in March instead of July was exceptional. Please note that, as a result of this early payment of the 2004 interim dividend, for tax purposes for the tax year 2004-2005 there is only one SIT dividend to record – the year-end dividend paid in February 2005.

SIT PEP and ISA investors

The contact / helpline number for the SIT PEP and ISA administrator, Halifax Share Dealing (HSDL) is **0845 850 0181**.

This number should be used for any account queries, requests for valuations or information about your PEP or ISA, to give change of address details or for help with accessing PEP and ISA information on-line.

Electronic communications

If you are a name on register stockholder (ie, not in the PEP, ISA or STOCKPLAN schemes) you may choose to receive our interim and annual reports and other stockholder communications electronically instead of in paper form. All you need to do to register is to visit the link on our website at www.sit.co.uk and provide your email details. You will then be advised by email when an electronic communication is available to be accessed.

Electronic voting

Name on register stockholders are able to submit proxy votes electronically for our AGM. Details will be sent to investors with their annual report.

Please remember that we are unable to offer individual investment or taxation advice. If you require such advice, you should consult your professional adviser. SIT Savings Limited is authorised and regulated by the Financial Services Authority (FSA).

Risk Warning

The value of shares and the income from them can go down as well as up as a result of market and currency fluctuations and you may not get back the amount you originally invested. SIT has a long term policy of borrowing money to invest in equities in the expectation that this will improve returns and, should stockmarkets fall, such borrowings would magnify losses on these investments. Investment in SIT is intended as a long term investment. Taxation levels, bases and reliefs are subject to change and may depend on individual circumstances.
